

NEBOSH National General Certificate (REF:APIXNGC001)

Who Should Attend?

Individuals that as part of their role have health and safety responsibilities and require a nationally recognised qualification in health and safety.

Course Objectives

To provide a formal vocational qualification in health and safety, examined to NVQ level 3.

Course Description

A 10-day course covering all aspects of health and safety, with the first week concentrating on health and safety management systems and the second week on the control of workplace hazards.

Pre-requisites

Previous basic health and safety experience and / or qualifications e.g. IOSH Managing Safely would be an advantage, but not essential.

Attendees should have a fair understanding of English Language.

Course Outcome

There will be an open-book exam for NG1 (which is completed from home) and a risk assessment project for NG2 (approximately 3000 words)

Course Outline

Week 1 (NGC 1)

- Element 1 – Why we should manage workplace health and safety
- Element 2 – How health and safety management systems work and what they look like
- Element 3 – Managing risk – understanding people and processes
- Element 4 – Health and Safety monitoring and measuring

Week 2 (NG 2)

- Element 5 – Physical and psychological health
- Element 6 – Musculo-skeletal health
- Element 7 – Chemical and biological agents
- Element 8 – General workplace issues
- Element 9 – Work equipment
- Element 10 – Fire
- Element 11 - Electricity
